Summary

Associate Digital Engineer with 2+ years of experience building and deploying **AI-driven solutions** using **Azure Cognitive Services**, **OpenAI**, and **Generative AI** frameworks. Proficient in **Retrieval-Augmented Generation (RAG)**, **Large Language Models (LLMs)**, and **Responsible AI** practices, demonstrated through projects like **Harmoni.AI** (Sonata's Responsible AI platform) with a focus on scalability, ethical AI, and business impact.

Experience

Sonata Software

Associate Digital Engineer (Cloud and AI)

03/2024 - Present

A Modernization Engineering Company.

- **Expertise in Advanced Generative AI Models:**

Proficient in designing, training, and fine-tuning state-of-the-art generative AI models, including GPT and DALL-E. Skilled in leveraging frameworks such as Lang Chain, TensorFlow, PyTorch, and Hugging Face to develop innovative solutions for text, image, and audio generation.

- **End-to-End AI Solution Development:**

Experienced in building end-to-end generative AI pipelines, from data preprocessing and model training to deployment and optimization. Demonstrated ability to integrate generative AI solutions into real-world applications, such as chatbots, content creation tools, and personalized recommendation systems.

- **Led Responsible AI Integration in Harmoni.AI:**

Played a key role in developing **Harmoni.AI**, Sonata Software's cutting-edge generative AI platform, by embedding **Sonata's Responsible AI framework** into the solution. Ensured ethical AI practices, including bias mitigation, transparency, and accountability, while enabling businesses to achieve faster time-to-market with secure and scalable AI-driven insights.

- **Expert in AI Solutions Development:** Specializes in architecting and optimizing advanced AI solutions for enterprise clients using Azure Cognitive Services and Microsoft technologies.

- **Broad Range of Azure Expertise:** Proficient with key Azure services, including Document Intelligence, Face API, Computer Vision, QA Maker, LUIS (Language Understanding), Text Analytics, and Speech Services.

- **Azure OpenAI Integration:** Possesses significant experience in integrating cutting-edge AI models through Azure OpenAI, automating and enhancing client applications.

Projects

Gen AI Development

Bengaluru

2024

Developed multiple AI Applications (POC's):

- **Document Search Bot:** Designed and implemented a Generative AI-powered bot using **Retrieval-Augmented Generation (RAG)** and **Large Language Models (LLMs)** to enable seamless document uploads and intelligent search capabilities.
- **Medical Assistant:** Built a Generative AI-based bot leveraging **RAG** and **LLMs** to assist patients by providing accurate and timely responses to their medical queries.
- **Geetha-GPT:** Developed a specialized bot focused on the Bhagavad Gita, utilizing Generative AI to provide insights and answers related to the sacred text.

Eye Pupil Movement Based Pin Authentication System
