Summary

Digital Engineer with **3 years** of experience working on AI-driven solutions using Azure Cognitive Services and Azure OpenAI. Hands-on experience in building applications using Generative AI concepts such as RAG and Large Language Models (LLMs), including chat bots and document processing solutions. Experienced in end-to-end solution development, from requirement understanding to deployment and support. Contributed to projects with a focus on Responsible AI practices, scalability, and delivering practical business solutions.

Experience

Sonata Software

Digital Engineer (Cloud and AI)

03/2023- Present

A Modernization Engineering Company.

- **Experience in Generative AI Models:**

Proficient in working on generative AI models, including GPT and DALL-E. Skilled in leveraging frameworks such as LangChain, TensorFlow, PyTorch, and Hugging Face to develop innovative solutions for text, image, and audio generation.

- **End-to-End AI Solution Development:**

Experienced in building end-to-end generative AI pipelines, from data preprocessing and model training to deployment and optimization. Demonstrated ability to integrate generative AI solutions into real-world applications, such as chatbots, content creation tools, and personalized recommendation systems.

- **Experience in AI Solutions Development:** Specializes in developing and optimizing AI solutions for enterprise clients using Azure Cognitive Services and Microsoft technologies.

- **Broad Range of Azure Expertise:** Proficient with key Azure cognitive services, Azure OpenAI, including Document Intelligence, Face API, Computer Vision, QA Maker, LUIS (Language Understanding), Text Analytics, and Speech Services, Azure BOTServices.

- **Azure OpenAI Integration:** Worked on integrating cutting-edge AI models through Azure OpenAI, automating and enhancing client applications.

Skills

Cloud Computing, Azure AI/ML, Azure AI Studio, Azure OpenAI, Generative AI, RAG, Artificial Intelligence, Cognitive Bot Services, Bot Framework SDK, Document Intelligence, Speech Services, Speech Studio, Computer Vision, Text Analytics, Python, Git, LangChain, Hugging Face.

Projects

Microsoft ACS, AI/ML & IOT

Bengaluru 2023-Present

AI Solutions Development: Worked on developing and optimizing AI solutions for enterprise clients using Azure Cognitive Services and Microsoft technologies.

- **Azure OpenAI Integration:** Worked on integrating AI models through Azure OpenAI to automate and enhance applications.
- **Collaboration with Microsoft Teams:** Worked closely with Microsoft Incident Managers, Product Teams, and Customer Success Account Managers (CSAMs) to ensure successful deployments.

- **Seamless Production Deployment:** Supported deployment of AI solutions in production environments with a focus on reliability and scalability.
- **Complex Technical Issue Resolution:** Troubleshoot and resolved technical issues during development and deployment of AI solutions for clients.
- **Strategic AI Guidance:** Supported aligning AI solutions with business requirements and project objectives.
- Developed proof-of-concept solutions leveraging cognitive services such as Azure OpenAI, speech recognition, computer vision and document intelligence.
- In Azure, utilized various cognitive services in Studios, understanding their design and functions and limitations.
- Skilled in troubleshooting, I adeptly resolved errors during chatbot development by consulting documentation.
- Collaborated with cross-functional teams to conceptualize, design, and implement AI- driven solutions for upcoming projects.
- Stayed updated with the latest advancements in AI technology and implemented innovative approaches to drive project success.

Gen AI Development

Bengaluru

2024

Developed multiple AI Applications (POC's):

- **Document Search Bot:** Developed a Generative AI-powered chatbot using **Retrieval-Augmented Generation (RAG)** and **Large Language Models (LLMs)** to enable seamless document uploads and intelligent search capabilities.
- **Medical Assistant:** Built a Generative AI-based Bot leveraging **RAG** and **LLMs** to assist patients by providing simplified responses to their medical queries.
- **Geetha-GPT:** Developed a chatbot focused on the Bhagavad Gita using Generative AI to provide insights and answer user queries.

Certifications

Microsoft		
AI 900		01/2025
Microsoft Certified Azure AI Engineer		
QAltd		
Azure OpenAI & Cognitive Services Advanced		10/2023
Q&A ltd Certification on Azure OpenAI Advance		
QAltd		
Azure GenAI		08/2024
Q&A ltd Certification on Azure Gen AI Advance		

Education

Nagarjuna Collage Of Engineering		
B.E.in Electronics and Communication Engineering-7.8 CGPA		08/2018-08/2022

Awards

&DNA Award 'RUN FOR IT'
Recipient of multiple
awards for
Collaboration and
outstanding
contributions to team
efforts.

ĠDNA Award 'Emotions at work'
Recognition for exceptional
teamwork
And support.

*PEER360 Award 'The Role Model'
Honored for exemplary role
model in and
Within the organization
